Godrik & Hacman 12-2 PM - **Perceptual Groove** The goal of our radiothon show this year is to play an energetic mix of jam-oriented "songs" that are spun into a web of virtuous sounds. All of the music that we play under the distinction of this theme will embody improvisational qualities and be ridden with shots of spontaneity throughout the eclectic mix of funky tones and intervals. Moreover, we vow to not discriminate, especially on counts of musician's nationality, ethnicity, chosen instrumentation, time-period of production, or 'type' of music. Musicianship and unbridled energy will be prime metrics for finger picking the music for this show.
